

26-30 SEPTEMBER 2022

EUROPEAN SUSTAINABLE ENERGY WEEK

Going green and digital
for Europe's energy transition

Workshop 'Co-benefits of Plus Energy Buildings in household and community level'

Date: 28 September 2022, 9:30 – 11:00 AM CET

Location: Confindustria EU Delegation

[Avenue de la Joyeuse Entrée 1](#)
[1040 Brussels, Belgium](#)

A positive energy building brings about many unaccounted benefits apart from the generation of surplus energy from renewable sources. These 'co-benefits' can be broadly classified as environmental, user well-being, economic and social. In the EU-funded project Cultural-E we examine these Co-benefits of the Plus Energy Buildings (PEBs) at the household level and at the community level: <https://www.cultural-e.eu/objectives/#methodologies>

In this workshop we would like to discuss the methodologies we chose and share the status of work done and get your valuable feedback to contribute to our work.

As a teaser: we employed two separate methodologies depending upon whether the co-benefits have an existing market price tag or not. The availability of social or economic market prices for some of the co-benefits makes them suitable for quantification using the Direct Costing (DC) method, whereas the remaining co-benefits which do not have associated costs can be quantified using a method called the Discrete Choice Experiment (DCE).

26-30 SEPTEMBER 2022

EUROPEAN SUSTAINABLE ENERGY WEEK

Going green and digital
for Europe's energy transition

'Co-benefits of Plus Energy Buildings in household and community level' Workshop

09:00 – 09:30	<i>Coffee break and registration for Energy Day</i>
09:30 – 09:35	Brief introduction to the project and outline of the workshop (Annamaria Belleri, EURAC Research)
09:35 – 09:40	Introduction to the Co-benefits from Plus Energy Buildings (Samar Thapa, University of Venice)
09:40 – 10:00	Presentation on Direct Costing (DC) (Francesco Bosello, University of Venice)
10:00 – 10:20	Presentation on Discrete Choice Experiment (DCE) (Andrea Bigano, Mediterranean Center for Climate Change – CMCC)
10:20 – 11:00	Discussion and Feedback
